

## The Hallberg-Rassy Rally where everybody wins 2024

Start and finish at 11 o'clock on an imagined line between the green mark and the temporary buoy south east of the green mark. Please use the GPS time as start time as GPS is absolutely accurate. We sail the route three times.

This chart is not for navigation. It is roughly 12 nautical miles to sail.

We aim to take a lot of good photos, so please **no fenders** on deck nor at the transom, **fold the sprayhood down** (if it is not raining), and do **fly your nationality flag!** Photos will first be published on [facebook.com/hallbergassy](https://facebook.com/hallbergassy) and at the Saturday night dinner /prize giving.

The weatherforecast says a fairly warm day around 18 degrees, cloudy, hardly any rain during the sail but later in the afternoon, stable winds from SE, 18-20 knots / 9-10 m/s.

This is a rally, not a race. There is no time keeping. Have fun!
