

## The Hallberg-Rassy Rally where everybody wins

Start and finish at 11 o'clock on an imagined line between the green mark and the island Kamperholmen. Please use the GPS time as start time as GPS is absolutely accurate. The course to sail is clockwise. Watch out for the underwater rocks and the wave generators area.

This chart is not for navigation and the spotted underwater rocks are not intended to be complete. It is roughly 9 nautical miles to sail.

We aim to take a lot of good photos, so please **no fenders** on deck or at the transom, **fold the sprayhood down**, and do **fly your nationality flag!**

The weatherforecast says winds from SSW, 8-10 knots / 4-5 m/s and nice weather with sunshine and some clouds.

This is a rally, not a race. There is no time keeping. Have fun!
